

1927 (d) Drugs

Per Section 1927(d) of the Social Security Act, specified drugs are optional for coverage by Medicaid and are exempt from coverage under the Medicare Modernization Act.

The following excluded drugs [per Section 1927(d)] are covered by Arkansas Medicaid.

This reference list includes drugs covered for Medicaid beneficiaries and dual eligible Medicare/Arkansas Medicaid beneficiaries. Drugs marked with a (#) sign are approved for payment by Medicare for dual eligible beneficiaries and are to be billed to Medicare rather than to the Arkansas Medicaid Program.

OTC Medications are only covered pursuant to a valid prescription but are not covered for Long Term Care beneficiaries. Inclusion on this list does not guarantee market availability and products must have a rebate agreement with the Centers for Medicare and Medicaid Services (CMS) to be covered by Arkansas Medicaid.

Arkansas Medicaid designated Cough and Cold Products (denoted with an *) are restricted to beneficiaries under 21 and Long Term Care.

Pharmacy Quantity of Claim Edits may apply.

[Arkansas Medicaid Pharmacy Claim Edits](#)

Pharmacy Prior Authorization or Clinical Criteria may apply.
